deep in our heart. Back to the start, deep in our heart.

(*) Piece can be done in unison or as a 2- or 3-part round where subsequent voices come in when the first voice gets to "PART 2" or "PART 3" respectively. Simple circle dance movements, optionally performed with flashlights in a darkened room, add to the effectiveness of the children "as the light of the world". To simplify, especially with young children, omit half the words by repeating the words from the first eight measures of each part a second time. Song would then have only three verses to learn, each sung twice to the same melody.
